Profile

Motivated, dynamic and talented Software Engineer seeking to advance professional career. Have a true passion for technology and programming. In-depth understanding of Software Engineering, Algorithms and Data Structures and Design Patterns. Fast-learning, hardworking specialist with previous work and research experience. Showed myself as organized, self-motivated and capable of working under pressure by combining studies with work and other commitments. In 2012 was selected from over 1600 candidates and awarded with a Fulbright scholarship. Working as a Software Engineer for CrossnoKaye (<https://crossnokaye.com/>). Involved in development of a platform for energy use optimization in industrial applications.

Education and Training

- September 2012 – May 2014 Master's degree in Computer Science, University of Minnesota Twin-Cities, USA
- July 2012 – August 2012 Fulbright English For Graduate Studies, Monterey Institute of International Studies, USA
- September 2011 – June 2012 Master's degree in Control for Technical Systems, Tomsk Polytechnic University, Russia
- September 2007 – June 2011 Bachelor's degree in Automation and Control, Tomsk Polytechnic University, Russia.

Awards and Scholarships

- July 2012 – May 2014 Fulbright Foreign Student Program, USA.
- September 2007 – May 2012 Government Stipend, Russia.
- October 2007 – June 2011 Elite Education Stipend, Russia.

Work Experience

- 07/13/2020 - present **Senior Software Engineer** at CrossnoKaye. Involved in development of a platform for energy use optimization in industrial applications.
- 10/01/2015 - 07/02/2020 **Software Engineer II** at DP Technology corp. Involved in several projects including but not limited to CNC machining simulation, UI design, backend development, software quality improvement, continuous integration.
- 06/09/2014 - 08/28/2015 **Software Engineering Intern** at DP Technology corp. Worked on software optimization and new feature design for CAM solution ESPRIT.
- 05/27/2013 - 08/25/2013 **Research assistant** at the Robotic Sensor Networks Lab (rsn.cs.umn.edu), University of Minnesota. Working on autonomous navigation algorithms for unmanned aerial vehicles.
- 08/11/2011 – 05/30/2012 **Software Engineer** at the Siberian State Medical University. Worked on medical data analysis, implemented the toolbox for organ failure risk estimation (Patent #2013618426).

Skills

Programming languages: go, C/C++, Python, C#, Java, JavaScript. (ordered by proficiency)
Development tools and libraries: AWS (Kinesis, RDS, S3, ECR, EC2), timeseries db (Influx, Timescale, Clickhouse), db (Postgres, SQLite), metrics and monitoring (grafana, prometheus), version control (git), ROS.
DevOps tools: kubernetes, terraform, docker, gh actions, team city.
